Throughout Spiritualism's history as well as in many diverse indigenous cultures, forms of Trance Mediumship have been utilized to access the spiritual realm. Spiritualist Mediums may look to Trance for the expression of the philosophy and guidance of the Spiritual World that is separate from and not influenced by our own brain, our own thoughts, and our own viewpoints. Trance Mediumship is developed through conscious cooperation and agreement between the medium and the spirit world and our team of spirit teachers.

During this year course some areas to cover and explore are:

- *understanding the terms and differences of trance, entrancement, mental mediumship and channeling**
 - *working with developmental exercises to experience your trance potential**
 - *strengthening and deepening your trance**
 - *cabinet work**
 - *developing and understanding the relationship between you as the medium and your spiritual team**
 - * work towards developing philosophy and guidance through trance**
- (continued on back)
